CONSTABLES TO LOSE OFFICE IN DECEMBER UNLESS RE-APPOINTED

Move Underway to Repeal Charter's Civil Service Clause

For the first time there will be no name of candidates for constables on the ballot this fall. Because of last minute changes made in the county charter and approved by the state legislature, all constables in Alameda county will be appointed under civil service regulations beginning with the new official term, January 1, 1931. Previously they have always been elected by the people of their township.

The appointments presumably are to be made by the sheriff on recommendation of the county board of supervisors. Unless the present constables can lead all comers in the civil service examinations their tenure of office is likely to end December 31, 1930.

Prior to the election of 1928 the county supervisors failed to act on a petition to put the names of candidates for constable on the ballot. Supervisor Charles Heyer, of Hayward, and William J. Hamilton, of Alameda, voted for the petition, and Redmond C. Staats, of Berkeley, and Ralph V. Richmond, of Niles, voted against it. Supervisor Mullins was absent making a tie vote which delayed action until too late to affect the ballot. Therefore the standing of the constables was abolished as far as elective action is concerned.

The official existence of Constable Thomas Silva and Constable Joe Bernardo, of Centerville, will be ended this year if they do not beat out any other competitor in the civil service examinations.

As a remedy for this situation Constable M. E. Jones, of San Leandro, is planning to have placed on the ballot next November a referendum providing for the election of the constables by the vote of the people as done in the past. This would involve the repeal of the present county charter provision that constables shall be appointed under civil service examinations.

Constable Tom Silva, who has served for twelve years, sees several changes for the worse in the civil service provision.

First of all Alameda county will have to spend \$20,000 to purchase automobiles for the dozen constables in the county when they are installed as county officials under the civil service. He points out that this amount would pay constables' salaries for some time to come.

Another disadvantage is that they will be "obliged" to work only between the hours of 8 to 5 daily. Both constables have been on call day and night whenever their services were wanted. They have devoted much of their own time to the work. Many neighborhood disputes, for example, have never reached the court stage because they were able to conciliate the persons concerned.

The constables' districts consists of Washington township in which 12,750 or more people live. They have charge of serving many legal papers from the justice of the peace court as well as performing necessary police duties throughout this area.

Several local people feel that the appointment of constables by county authority will be slighting to the voters, who have been accustomed to elect their own police officers.

The constables were assured at the time of the passage of the county charter bill, that they would continue in office at the expiration of

HIGHWAY BETWEEN NILES - HAYWARD IS COMPLETED

Reconstructed Road Re- lieves Traffic On Other Highway

The Hanrahan company, contractors on the construction of 8.7 miles of highway between Hayward and Niles, have fully completed their work.

The original roadway on this project had an effective width of about 34 feet, being an 18-foot width of 4½ inches Portland cement concrete with eight-foot earth shoulders on either side. The construction just completed provides a 50 foot roadbed with 30-foot pavement throughout within a 100 foot right of way. The original pavement was utilized in so far as possible as a base for asphalt concrete surface, widening being effected by construction of the additional lane of Portland cement concrete 8 to 10 inches in thickness.

Three important line changes were made under the present construction, the most outstanding being that at the underpass of the Southern Pacific railway at Niles, where an approach consisting of a 700 foot radius curve 150 feet in length reversing on a 250 foot

NILES CHAMBER ADJOURNS DURING JULY AND AUGUST

Summer Business Handled Through Secretary and Directors

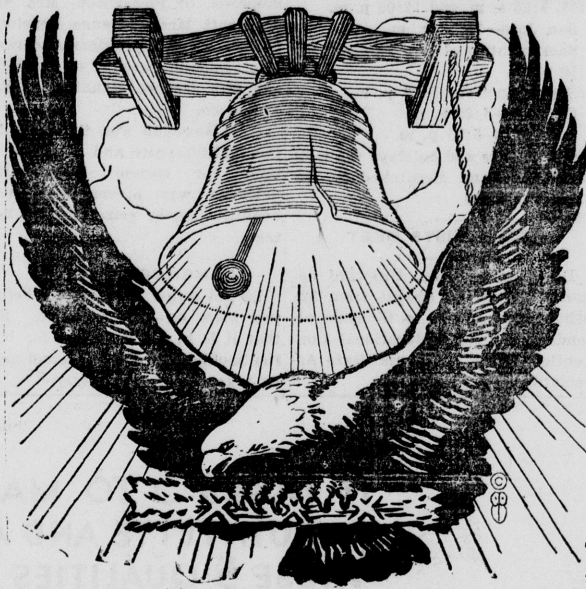

A score or enthusiastic members attended the last official meeting of the Niles Chamber of Commerce until September 2, as the meetings were ordered discontinued by the president, L. E. Smith, during July and August. H. L. Scott was the attendance chairman of Tuesday's luncheon meeting in the Florence Restaurant.

A communication was read from the North Monterey County Chambers of Commerce asking the local body to endorse a Filipino independence movement to solve immigration problems in that district. By a motion made by F. V. Jones the matter was tabled. The local consensus of opinion was that those conditions in Monterey did not affect this community.

The remainder of the meeting was devoted to a discussion of business conditions in California. Merchants were told of the prices of apricots this season, so that they would handle their credit situation reasonably. The situation of the oil industry will affect purchases and credits, said L. E. Smith, manager of the Associated Oil Company here. "It is a fight for conservation, said Smith, as the independent com-

Fourth of July--1930

People Of The United States Celebrate Independence Day

What a difference Independence Day means to the men, women and children of 1930 than to those in 1776! In former years Fourth of July was a day of patriotism proclaimed by noisy fireworks, drum beating, flag carrying, and orations delivered by one who excelled in his velocity of syllables and his ability to maintain a fortissimo. Such proceedings would be laughed at in this age of science, machinery and education.

On this national holiday we no longer gloat over past victories but look forward to permanent international peace.

Dr. William Lyon Phelps, the distinguished man of letters, challenges us to a saner, more worth-

while patriotism that omits the mental fireworks, in his article in the July Delineator

Dr. Phelps said in part: "Just as the old and noisy methods of celebrating the Fourth of July have given place to a more quiet, more safe, and more sensible commemoration, so the conception of patriotism today has in general reached a higher and more dignified plane than in the past."

"I should like to see all Americans, instead of being proud of having the greatest wealth, or the most powerful navy, or the best climate in the world—I should like to see them proud of belonging

GROWERS RECEIVE LOW PRICES FOR THEIR APRICOTS

Growers and Cannery Ar- rive at Agreement on Price Scale

As the result of a meeting between the Canneries League and the Grower's Cooperative Association, apricot prices set for this season are half as high as those prevailing last year.

Two forms of contracts were offered, one calling for \$42.50 per ton for apricots running twelve to the pound or larger with 21.25 per ton for smaller fruit in the mixture and the other calling for 35 per ton for fruit running fourteen to the pound or larger, with 17.50 per ton for smaller fruit in the mixture. Twenty-two dollars and twenty-five cents per ton is the price set for apricots running thirteen to fourteen to the pound.

Growers who a week ago agreed at a meeting in San Jose to hold their fruit for 65 to 75 a ton declared the price offered was far below the cost of production. Many growers will dry their fruit in preference to selling it at the prices offered by the canneries. Prices ranged around 75 and 80 a ton last year.

Cannery declare that with a million cases of last year's apricots unmarketed, high prices were out of the question. According to present indications Schuck's cannery in Niles will not have their usual apricot run this year, but will begin operations on a long run of peaches about the fifteenth of the month. F. E. Booth Cannery Company in Centerville is canning apricots at present. The fruit is being shipped from Brentwood and bought from township growers.

NURSERYMEN OF WEST COAST TO HAVE BARBECUE

G. C. Roeding, Jr., Opens Nursery Convention In San Francisco

George C. Roeding, Jr., president of the California Nursery Company, states that plans and arrangements have been completed for the convention of the Pacific Coast Association of Nurserymen from eight western states and British Columbia. Roeding is the president of the association. Sessions are to be held in the Drake Hotel, San Francisco, July 8, 9, and 10.

On July 11 over two hundred delegates and their wives will come to the California Nursery in Niles for a pleasant day of recreation, entertainment, and to inspect one of the state's largest nurseries. A barbecue is to be served in the afternoon.

Several of the topics to be discussed at the conclave are selling and standardization of grades of ornamentals and roses, national advertising, beautification of state highways, co-operative selling and other topics of present interest to the members of this large organization.

The convention will also devote a session to the new program of state and national parks. Chester Rowell, well-known newspaper writer, and A. E. Miot, of the United States Forestry service, are to be the principal speakers.

EDITORIAL COMMENT

By NORMAN H. PARKS, Publisher Register

WAR SETTLES NOTHING

THE REGISTER has no commendation for those senators and representatives who are attempting to save the country from what they are pleased to term entangling European alliances. The sincere attempts to limit military establishment and reduce the staggering cost of preparation for war, the writer endorses unstintingly. The plan may be imperfect, and in some respects may even put this nation at a disadvantage, but it is a movement in the right direction. A conference along this line must be a matter of give and take to make it effective.

War ravishes the treasury and virile manhood. It takes the best and does not permanently settle any issue. The next generation must pay for the victory of the present. Mediation and board conferences are all that can offer a suitable solution for any issue debated between two or more nations.

Force begets force. Arrogance, born of over-preparation, goads another people to cross arms with vaunted invincibility.

America is in a dangerous position. Like similar nations that have risen to tremendous wealth and power, our country believes itself capable of enforcing its will upon the world. For a time, perhaps, this can be done, but any unreasonable attitude upon America's part will forge the ties of an alliance against it, as a matter of self-preservation economically, or to preserve inviolate individual national sovereignty.

Hoover has made what the Register believes a very lofty attempt to meet the world upon a common ground of understanding in the London conference. Extreme nationalists (imperialists, never-less) have opposed him bitterly, and effectively crippled the movement toward world peace.

But if one believes in constant progress in world affairs, then one must believe that the London conference, while not all that one might have hoped for, has however been fraught with international goodwill. It has brought the goal of world-wide understanding a little nearer. It has made aggressive war less likely.

OUR SKYLINE RISING

COMMERCIAL EXPANSION is going on so fast in Niles that it makes the old-timers' heads whirl. In the last year Niles has been made over so completely that one who lived here several years ago and was back on a visit would scarcely recognize the place.

And last week the announcement was made that the Odd Fellows lodge will begin at once the erection of a \$25,000 home on East Main street. The last brick has hardly been laid in the legion memorial building when another fraternal organization begins putting up a beautiful new home.

Drive over the residential streets of Niles. What a marked change! How different everything looks. Before was dust in the center, weeds on the sides, few walks, and nothing uniform. Today every thoroughfare in town is surveyed, the streets oiled and graveled in a condition almost as good as cement pavement. The curbs are all alike and where walks formerly existed only as cow paths, now cement is used. The town looks good to the eye. Progress everywhere is apparent. The people here are at last proud, and with reason, of the home town. The future holds great expansion possibilities—and those possibilities are already unfolding themselves!

The Township Register, as it has repeatedly said, believes in Niles. The writer has grown to like Niles, is jealous of its reputation for doing just the right thing at the right time.

And the next thing that should be done is to open Main street through the California Nursery Company grounds. George Roeding, owner of that tract of land, promised that this would be done early in 1930. While a delay has been experienced in the time set for its improvement in road and street facilities, the Register feels that it has been unavoidable. Mr. Roeding is a man of his word, we are sure, and very soon he will have an announcement that will bring joy to everyone who understands and fully appreciates the fact that Niles' expansion must be westward.

The Newark Register

The business place of Silva & Ruschin and Paul Gyax mercantile store is being remodeled which includes extending the front towards the highway five feet. The building is being stuccoed throughout and there are many changes being made in the interior. This place being in the center of the business district will improve the appearance of the town considerably.

Mrs. Mattie E. Bole is very proud of the fact that the post office has been moved to the new quarters of the Bank of Italy building at Newark. The Bank of Italy has made changes in the interior which makes the Newark post office one of the most modern in the township.

Miss Julia Ruschin, editor of this column, is enjoying a two week's vacation at Larkspur.

Mrs. Mary Dutra, Mrs. John E. Dutra and son, Jackie, are spending a three week's vacation at Santa Cruz. Mrs. John E. Dutra is combining business and pleasure by taking a course at a branch of the State Teachers' College there. Mrs. Elsie Madruga, of Centerville, and two sisters, Eva and Elizabeth Costa are also vacationing with Mrs. Dutra.

Mr. and Mrs. Lawrence Costa are spending two week's vacation at Monterey. Mr. Costa is employed by M. D. Silva and his position is being filled temporarily by Anthony Knobles.

Mr. and Mrs. J. E. Pashote and son, Eugene are spending July 4, 5, and 6 at Santa Cruz.

Peter Freitas, a prominent building contractor of Newark, spent Friday at Pescadero. He was fortunate in returning to Newark with a limit of abalones.

Mrs. Eva Steinhoff and son, Hugh along with a party of friends are spending two weeks at Yosemite.

Mr. and Mrs. Arthur Cladden are spending a week's vacation at Monterey.

SCOUTS HAVE WORK AND FEEDS DURING SUMMER VACATION

Meeting Will Be Continued During Vacation Months

The last official meeting of Niles troop No. 1 of Boy Scouts was held in their club house, Friday night. A "feed" was enjoyed following the meeting. Scoutmaster Marshall Green announced that weekly meetings would be continued throughout the summer to keep up interest and dues. The scouts will not work for merit badges and do regular work during these summer meetings. When school opens in the fall the official meetings will open again.

A number of the boys collect old papers on the last Saturday of each month as a means of raising money to pay their semi-annual installment of \$50 on the club house to the Tinega group of Camp Fire Girls. The barn on the scout premises is nearly filled to the roof now. The boys who collected papers in a truck, Saturday were James Geib, Frank Perry, Arnold Abrott, Lawrence Pine, Tony Correlra, and Harry Cesari.

Corn Feed.

Plans are being made for the big corn feed tonight. A sack of corn has been given to the scouts by Committeeman J. E. Townsend. Chef Jim Geib and his assistants will cook the corn in the outdoor fireplace in their best style. The members will have all the corn on the cob that they can get away with, says the chef. The weekly meeting is being held tonight because tomorrow is a national holiday.

"Let's Get Associated" with Jack and Ethyl, Wednesdays, 8 P. M., NBC stations.

FROM the moment you step on the starter to the time you settle back to yield to the joy of full speed ahead, your eager motor demands five vital qualities from the gasoline it consumes. For finest performance it must have them all; Starting, Pick-up, Power, Speed, Mileage—in correct proportion.

That's why Associated Gasoline is Equi-fractionated. Lighter gasoline fractions in vapor form are scientifically blended with heavier fractions—from higher boiling points—to assure, first, Starting and Pick-up, and then Power, Speed and surprisingly long Mileage.

Step by step, just as your car gets under way from low gear to high, Associated Gasoline is Equi-fractionated to supply the successive demands of your motor.

No one quality alone makes good gasoline; it takes them all. Don't be content with less.

Read the interesting "Equi-fractionated" pamphlet picturing this refining care in assuring you a perfectly balanced motor fuel. The Service-man at the red, green and cream Associated pump will offer you your copy.

SQUEAKING BRAKES

There are as many reasons for squeaking brakes as there are complaints of this trouble. If, therefore, a number of remedies have been tried without success it is wise policy to consider some of the ideas that are apt to be overlooked. For example, there are glazed spots on the lining. These should be removed by cleaning with a wire brush.

Another thing to try is smoothing off the edges of the lining. This applies particularly to internal expanding brakes where the shoes may engage with the drum at their edges first rather than at their centers. These ends of the brake shoe liners should be filed down.

Still another point often overlooked is the possibility that a brake shoe pin may be rusty so that the shoe does not move freely, thus engaging out of time with the others.

to the most unselfish country in the world. I should like to see the word 'American' stand for good behavior, modesty, kindness, tolerance, and for breadth of mind and culture. Let us compete with other countries not in armaments or in riches, but in the fruits of the spirit.

"If true patriotism means not only an instinctive love of one's native land, but a longing to have one's country play a just and generous part in world affairs, then we can have that higher patriotism that extends beyond boundary lines.

"The word foreigner must be a description and never an epithet. We must learn to call people of foreign extraction by their correct names—and never call them Huns, Wops, Frog-eaters, Chinks, and Japs and other insulting appellations. A dislike of foreigners is invariably the mark of an immature mind.

"Professor Robert Millikan in his latest book says that there are three leading ideas in the world of thought and science. He places the Golden Rule highest believing it to be more important than the theories of evolution or gravitation.

"It is the profoundest trust known to man. The greatest teacher in his-

tory not only said 'Love thy neighbor as thyself,' but in response to the question, 'Who is thy neighbor?' he left no doubt that our neighbors were all the children of men. The fact that a man lives on the other side of a national boundary line does not cancel his neighborship. Remember that while prejudice is an ugly thing and tolerance a fine thing, there is something more splendid than tolerance. It is fellowship!

"The actual realization that all the world is one family is the ideal for the true patriot. If the words 'fatherhood of God' and 'brotherhood of man' have any meaning whatever, if they are anything except cant, then there can be no such thing as a foreign war. Every war is a civil war!

"But not only is international friendship desirable it has become a necessity. War simply won't do. As the murder of another man's body is the suicide of the murderer's soul so one nation cannot win any spiritual safety fight another.

"The first Fourth of July celebration was in a war. The most 'Glorious Fourth' in the future will be that one which celebrates, in the language of the poet, 'The Parliament of Man, the Federation of the World.'

It is with thanksgiving that we will celebrate tomorrow in peace times and pray that the era of peace will continue into the world brotherhood of man and international peace.

Grape Growers of Livermore and Pleasanton Districts Urged to Join Federal Pact

Grape control drive in the Pleasanton and Livermore vineyard district have been augmented this week by the signing of the R. C. Aldrich and Rooney ranches for the Farm Board Grape Industry Relief Program. The Grape Sign-up committee in its effort to enroll eighty-five per cent of the California grape acreage for the control of grape surpluses is now moving ahead toward its goal of universal acceptance.

Under the direction of Joe Conannon, Livermore vineyardist, whose 300-acre vineyard is already registered for the farm board's control plan, the campaign to place Alameda county in the vanguard of northern California board pact is meeting with increasing success.

Growers throughout this section's highly productive viticultural

lands are gradually becoming aware of the splendid opportunity the central plan offers for the stabilization of the grape industry and its insurance of better trees to them for their year's toll. Under the control plan the surplus crop of more than 3,000 tons annually will be diverted into jellies and grape concentrates, thus relieving juice and table grapes from destructive competition with the normal market demands.

Growers in the Pleasanton district who desire to sign up may secure contracts from Ernest Ferrario, A. Raucci and Frank Garratti. Contracts also are obtainable at the aBnk of Italy and the First National Bank of Pleasanton.

FISH POND GIVEN BY SENIORS IS COMPLETED

The outdoor fish pond at the high school was completed this week. This permanent memorial is a gift of the class of 1930. It cost around \$100 to construct it and purchase the beautiful shrubbery and trees which surround it.

The pond was laid out in the court between the main building and the shops. It was artistically built in a figure eight shape about three feet deep. Soon gold fish and water lilies are to be placed in the pond. The shrubs and young trees complete this beautiful memorial.

POPULAR DENTIST WEDS MISS MICKLE AT LONG BEACH

Young Couple To Spend Honeymoon On Lake Louise, Canada

Many Centerville and township people are congratulating Dr. Stanley McMillan on his marriage to Miss Marie Mickle in Long Beach Monday morning. They returned to Centerville Tuesday morning and left on their honeymoon today keeping their wedding a secret.

The young couple were married by Reverend Perry G. Austin in the St. Luke's Episcopal church at Long Beach. Only members of the family were present at the ceremony. The wedding breakfast was served at the Virginia Hotel.

Miss Mickle was the daughter of the late Judge Benjamin Mickle, Justice of the Peace in Washington township for many years. Mrs. Mary Mickle, the bride's mother, is a resident of Berkeley. Dr. McMillan is one of Washington township's most popular dentists. He has built up a large practice in the several years that he has been located here. Both are graduates from the University of California class of 1922.

The newlyweds will spend their honeymoon on Lake Louise in Canada.

PERMITS FOR ALL WRECKING YARDS MUST BE OBTAINED

Operation of automobile wrecking and junk yards in the unincorporated areas of Alameda county is banned under an ordinance passed to print by the board of supervisors.

Because of the many complaints made by the residents along Foothill boulevard near Hayward that many such yards are located there the proposed statute was made.

There are several wrecking yards in this part of the county which would be affected if this new ordinance is passed.

As drawn up by assistant district attorney, Frank M. Ogden, who is the advisor to the board of supervisors, the ordinance requires permits to operate any junk yard in the rural areas of the county.

In addition, such yards must be maintained in buildings or inclosed by high fences and the junk must be neatly arranged. The yards must be kept in a sanitary condition, free from rats and other vermin.

A fine of \$500 and imprisonment in the county jail for six months is the penalty for violation of the ordinance.

CHILDREN KILLED IN SUMMER MAKES HIGH DEATH RATE

Children between the ages of five and nine are most likely to be injured in traffic accidents, according to the Safety Conference, which is continuing its "Protect Our Children" campaign during July, in an attempt to reduce the vacation toll of deaths and accidents on the streets and highways of California.

"In the survey made in California, it is shown that children in kindergarten and the lower grades are active enough to play in the streets, and yet fail to learn the necessity of keeping watch for approaching automobiles. The death rate for this class is therefore more than twice that of any other five year period.

"With schools throughout the state closed for the summer months all drivers should use additional caution while operating their machines in districts where children are playing. These districts are usually in the residential sections of cities and towns, or in the neighborhood of parks, playgrounds or beaches."

Which one would you select for a Salesman?

CLOTHES don't make the man, but a good appearance does have a lot to do with success in business. Most folks have learned that it costs no more to be properly dressed than it does to be careless or "freakish." If we could find out just what effect our appearance has on others, we'd probably discover that it pays big to be particular.

What is true of personal dress is true of the printed matter that represents you or your firm. You can't afford to use letterheads, invoices, statements, receipts—or even office forms—that look "cheap" or poorly printed. It pays big to be careful about such little things.

We believe that all of your stationery and office forms ought to be printed in the same shop, and at the same time, if convenient. Then they will be harmonious in design. If we produce them they will be fitting representatives of your business or professional standing.

Ask us about prices. We have a special plan that will save you money—if you don't delay too long.

CLEAN AND PAINT UP CAMPAIGN IS TO BE CONDUCTED

County Board Appoints Committee To Handle Campaign

Actuated by a desire to relieve the unemployment, to stimulate business and make Alameda county most attractive to visitors, the County Board of Supervisors passed a resolution authorizing the appointment of a committee to take charge of a clean-up, fix-up and paint-up campaign.

This campaign falls in line with the program advocated by President Hoover and the national committee called by him to help relieve the present business depression and unemployment situation.

The proposed local activity is part of a state-wide movement. In other cities, business generally and retail stores in particular, have found such a movement most helpful.

In line with the supervisorial resolution, Chairman W. J. Hamilton has appointed Norman H Parks as a member of the Alameda county committee which held its first meeting yesterday afternoon in the chambers of the Board of Supervisors in the Hall of Records, Oakland.

PARTY OF LOCAL RESIDENTS HAVE WEEK-END TRIP

Mr. and Mrs. L. E. Smith entertained a number of Niles people over the week-end. Saturday was spent at Mt. Hermon in the Santa Cruz Mountains. The party left there Sunday morning and motored to Santa Cruz. All those present then embarked on a yacht for deep-sea fishing which was not very enjoyable because of the rough condition of the ocean.

The party consisted of Mr. and Mrs. Fred Trask, Robin Trask, Charles Hatch, Mr. and Mrs. J. E. Geib and sons, Mr. and Mrs. Creed Domenici and son, Mr and Mrs. A. Vieux, Beverly Smith and Mr. and Mrs. L. E. Smith, all of Niles.

GAS PRICES

Gasoline prices throughout the world vary from 21.2 cents per gallon average in the United States to 68.8 cents per gallon in Bolivia.

EXTRA FAN BELT

Many motorists overlook the fan belt in the annual tuning up of the car at this time of the year. It should be included because if it is worn, it should be replaced or a new one should be bought and carried in the car. An extra fan belt is a good investment because in remote places the proper size cannot always be secured.

Township Young People Enjoy 43rd Annual Christian Endeavor Meet

The forty-third annual convention of the California Christian Endeavor Union was held in Sacramento from June 25 to 29. A number of young people in the township attended part or all of the convention, which was held in the Memorial Auditorium.

An innovation was made this year of having a general conference and school of Christian Endeavor methods every morning. In these meetings the delegates received something worthwhile which they could bring back to their societies.

Important speakers at California's capital convention were Reverend Louis Evans, Reverend C. P. Gates, Paul C. Brown, Howard L. Brown, Roy Creighton, Lewis B. Hillis, and Reverend Herbert P. Shaw. The theme "Approved unto God" was developed into five evening addresses on "Approved Unto God a Workman—in Our Prayer Life—a Soul Winner—in Missionary Service—and in Complete Surrender to His Will."

Again Reverend Evans of Pomona was the most popular speaker to the young people. His morning

and she says "moshi moshi nan ban besuka," or "hello, hello, number please." In Denmark and Norway she is "telefon dame," or "telephone lady," and she says "Central," a term once used in America. In Sweden she is a telefonist.

Various Responses Made By Telephone Operators Explained

In London it's "Are you there?" In Paris, "J'ecoute." In China "Day huey bin she ah?" In Berlin "Bitte, nummer." In this township, "Number, please?"

She's a telephonist in London; just Mademoiselle in Paris; "hom sin luey" in China; and in Berlin and in Washington Township, "operator."

Thus, do world telephone terms vary, finds Frank E. Humpert, manager of the Pacific Telephone and Telegraph company, who this week compared foreign directories with the new southern Alameda county telephone book.

Humpert says that translations of the foreign terms are as follows: "J'ecoute,"—"I am listening;" "Bitte, nummer,"—"Please, number;" "Day huey bin she ah"—"What place do you wish to call?" "hom sin luey"—"a telephone girl." A more proper term for operator in Chinese is "din wax sin gay sum" or "some one who answers the telephone and takes care of connecting you."

In Japan they call her "denw kokanshu" or "telephone operator

IRVINGTON GIRL MAKES DEBUT ON FULTON STAGE

Many friends of Miss Geraldine Harlan in Irvington and other towns of the township saw her make her first appearance on the legitimate stage last week. She played in "The Bachelor Father" in which Edward Norton starred, at the Fulton Theater in Oakland.

Miss Harlan was graduated from the Washington Union High School last year. She took leading roles in all school programs, and played

in the senior play, "New Brooms." For the past year she has been training with the Fulton players at the Ebell Club in Oakland. Her company has been presenting plays before charitable organizations for the past several months.

Because of her rare ability for stage work a brilliant career is predicted for her. She has starred in several amateur plays given in Washington township.

E. F. WITHERLY IS LAID TO REST IN LOCAL CEMETERY

For the second time in seven weeks death visited the Witherly family in Mission San Jose. Mrs. Tom D. Witherly was the first to pass away. Her son, Edward F. Witherly, was taken away last week by the grim messenger.

Funeral services were conducted by Rev. John R. Stevenson, of the Daly City Presbyterian church, who was formerly pastor of the Irvington Community church for a number of years. Services were held at 10 a. m., Monday. Interment was made in Irvington Odd Fellows' cemetery.

Mr. Witherly was forty-two years of age at the time of his death. He was born in Irvington in the year 1888. He leaves a widow, Katherine, and five children, Edward George, June Adele, Thomas Dexter, Helen May and Richard Malcolm.

The community feels deeply sympathetic for the Witherly family in their bereavement.

Alameda County Advertised In Big Eastern Newspapers

The effectiveness of newspaper advertising is now being demonstrated to members of the Board of Supervisors of Alameda county, who are conducting an advertising campaign in the Atlantic Seaboard and Middle Western states to tell residents there of the advantages of this county as a future home.

According to Supervisor Ralph V. Richmond, results are already being secured from the national campaign, in which a total of approximately \$50,000 is being spent by the board exclusively in newspapers. The first advertisement of this campaign appeared a short time ago in New York, Chicago, Detroit, Cleveland, St. Louis, and several other leading dailies of the east. As a result inquiries in large numbers for more information about Alameda county have been received here.

"In addition to the newspaper advertising campaign, several pieces of literature have been prepared, telling of the agricultural, industrial, aerial and educational advantages of the county," said Supervisor Richmond today.

"These booklets are mailed to those people who write secretaries of the Chambers of Commerce of Alameda, Oakland, Berkeley, Niles, Hayward, Livermore, San Leandro, Piedmont, Albany, Emeryville, Alvarado, Pleasanton, Centerville, Irvington, Newark, Decoto or Sunol asking for additional information about this great territory in which we live."

Supervisor Richmond declared that the members of the board were more than pleased with the results obtained at this early date in the national county advertising campaign which reaches an audience of nearly 12,000,000 persons.

"Even though only one advertisement has appeared to date in eastern papers, the number of inquiries received from it is very pleasing," he continued.

"The newspaper is the greatest advertising medium we have in America today. The American people depend upon it for news, for information about amusements and for suggestions where to purchase food, clothing and other necessities.

"When the board of supervisors decided to advertise Alameda county nationally it was agreed to spend practically all of its advertising appropriation in newspapers, because of the influence they have on the public. We believe the results already obtained more than justify our decision," concluded Supervisor Richmond.

In addition to the \$50,000 national newspaper advertising campaign, the advertisements being run in the east are reproduced in the various county papers in order that Alameda county residents may become more familiar than they are with the community in which they live.

HIGH SCHOOL BAND TO GIVE CONCERTS IN FIVE TOWNS

Rehearsals Starting Monday to be Held Semi-Weekly

It was announced this week that the high school band will hold practices during the summer vacation beginning July 7 in the Washington Union High School. Rehearsals are to be held every Monday and Thursday evenings until the school begins in the fall. Five band concerts are planned for this summer.

The summer band will be composed of all members of the high school band and any former member who is an alumnus. It is hoped that many students who formerly played in the band will join the summer band.

After several rehearsals, concerts are to be presented in Niles, Newark, Centerville, Alvarado and Irvington. An especially fine program will be offered in each town.

The musical numbers offered will include such famous selections as Tschalkowsky's "Marche Slave," Suppo's "Poet and Peasant Overture," Meacham's "American Patrol," several solos and snappy marches.

John E. Kimber will conduct the band as usual during the summer. He hopes there will be a large turnout at the first practice, Monday at 7 p. m.

It is hoped that this series of band concerts will be welcomed by the people of Washington township.

SUNOL

DEPARTMENT

(Too late for last week)

Mrs. Mary Buttner, of Oakland, is visiting with her sister-in-law, Mrs. Lou Bonner.

SCHOOL TO BUILD REST ROOM FOR WEAK CHILDREN

A sunshine restroom in which physically handicapped and underweight children will be given sun baths similar to those administered at Del Valle Farm, is to be installed at the Pleasanton Grammar school this fall as a project of the Pleasanton Township Health Center, according to Mrs. Walter M. Briggs, newly elected president of the organization.

Miss Barbara Bradley, local public health nurse, is to be in charge of the sun room and supervise the treatments of the pupils.

The Pleasanton Parent-Teachers' Association is sponsoring this new project. The recently elected officers are: Mrs. W. M. Briggs, president; Mrs. Lee Wells, vice-president; Mrs. William F. Silva, secretary; Mrs. Claude Smallwood, treasurer; Thomas H. Silva, chairman of the board. Mrs. Harry A. Johnson, Mrs. Alfred A. Does "Everybody" Know Your Store?

FREDERICK W. BRIDGES, advertising manager of the Hamilton (Bermuda) Royal Gazette & Colonist Daily, says:

That ADVERTISING PAYS YOU, MR. SMALL-TOWN-MERCHANT, in as great proportion as the national advertiser, if conducted in a rational and business-like manner. It is a too-common attitude on the part of the small town storekeeper that everybody knows his store, is familiar with what he sells, and that his regular customers will buy from him regardless of what the other man is offering. There seems, therefore, to be no need to advertise.

There Is Nothing "Regular" About Public's Buying

That this idea is based on a shaky foundation is obvious to the person who stops to think, for it predicates "regular customers," and experience in all towns, large and small, has proved over and over again that there is nothing regular about the buying public. All human beings are creatures of impulse to a greater or lesser degree, and any one thing, it may be better service, or even the fact that a competitor knows the value of a smile at the time, may change YOUR regular into HIS; in short, there is but a hair-line distinction between the status of "regular" and "casual" customer, and the conversion of the latter into the former depends almost entirely on the use of advertising.

What can you offer that is better than your competitor's? Is it Courtesy? Advertise it! Is it a lower price on a staple article, due to careful buying? Advertise it! Is it a feature line which you handle exclusively? Advertise it! Is your store handy to car-stops? Advertise it! Every day you have something which can beat, or is at least as good as the other fellow's, be it quality, price, service, courtesy, or what-have-you? Something has brought you your "regulars," but how many more can be brought in? Advertising will show you!

Your store is part of the community. How much of the community is part of your store? Unless there is a link between them your business may be average, but try the best link, advertising, and watch the results! Any special inducement you can offer is but the thin edge of the wedge, for every customer who comes in for your advertised line is a prospect for something you carry, and, once sold on your goods and your store will send his friends along.

BUT, IT ISN'T GOOD ENOUGH TO GET CUSTOMERS—YOU'VE GOT TO KEEP 'EM COMING, AND THE SUREST WAY IS TO ADVERTISE CONTINUOUSLY, and ADVERTISE INTELLIGENTLY.

NILES GUILD HAS ANNUAL PICNIC IN CANYON

As reported by several of those who attended the annual picnic of the Niles Congregational Guild, it was a most enjoyable affair and a marked success. Over thirty members and children attended this year's picnic held in Niles canyon, last Wednesday.

At noon a basket luncheon picnic was enjoyed by the gathering. The children and some of the ladies went in swimming during the afternoon.

Those in charge of the affair were Mrs. A. A. Hatch, Mrs. C. E. Martenstein and Mrs. E. A. Ellsworth.

Meetings Discontinued.
Mrs. A. A. Hatch, president of the Guild, announced that meetings are to be discontinued during the summer. At the opening meeting in September three new officers are to be elected.

FRUIT STORE IS BUILT ON MAIN STREET, NILES

Another new building faced Main street in Niles this week! E. Iacopi is having a fruit store constructed for his use. Carpenters have been rapidly putting up the building during the week and it will soon be completed.

According to present plans, Iacopi will sell fruits as he did in 1928 on the same corner, "H" and First streets. He has a large peach orchard near Niles.

Niles Fire Department Thanked for Services

The Township Register heartily thanks the Niles Fire Department for its services in burning the weeds on the property in the rear of the office. The firemen are to be complimented for the way in which they burn off dry grass and rubbish along the highways and private yards free of charge.

The department is doing this to prevent fires during the summer months. Several yards of dried weeds have already been burned.

VACATION SCHOOL HAS EXHIBITION AND BIG PROGRAM

The Vacation Church School of the Alvarado Presbyterian church held an exhibit and program in the church, last night. All of the children took part in the interesting program which was well presented. Craft work exhibited was very clever for children.

Miss Irene Cook, San Francisco, conducted the summer school here this year. She reports that the work has been satisfactory, although the attendance was small because many of the children are working on ranches and in orchards. Miss Cook also conducted the school at the Centerville Presbyterian church.

Alvarado Team Wins Baseball Game 8 to 4

The Alvarado baseball club's team played the New Process Laundry team of Oakland on Sunday.

"Spud" Degmar, pitcher for the Alvarado team, only allowed six hits to be made by the visiting team, while the home team scored 18 hits during the game. Silva was the pitcher for the Oakland team. This was one of the best games played on the Alvarado grounds for some time.

The score ended 8 to 4 in favor of Alvarado.

Elmer Roe, of San Francisco, visited at the home of his sister, Mrs. Charles Baird of Alvarado on Sunday.
